

The Open Science Office

University of Mannheim

The Open Science Office supports researchers at all career stages and from all disciplines in implementing Open Science practices and is interconnected with the Open Access team, the Research Data Center, the Research Support Unit and other players.

Training

At the Open Science Office, we provide and organize Open Science seminars as part of the Research Skills Seminar series at UB Mannheim every semester.

Support & Services

Do you have questions about how to deal with Open Science practices in your research projects?

You can contact the Open Science Office for one-to-one consultations with individual questions, plans for funding proposals, integrating Open Science practices into your workflow with your collaborators and more.

Grants

In annual funding rounds applications for small research projects and events related to Open Science are funded.

The Open Science Office organizes the calls, the review process, and the distribution of funds, as well as accompanies the project its entire duration.

If you are interested in Open Science, do not hesitate to contact us, we are more than happy to support your research and help you.

Dr. David Philip Morgan
Open Science Officer, Research Data Consultant
